

CARANDINI

CENTURY

The balance of geometry

CENTURY

Century is a lighting concept with a unique design.

It presents a contemporary and elegant design, giving the landscape a harmonious visual effect with the environment during the day, while at night it generates a pleasant atmosphere offering a feeling of warmth and security to people.

Thanks to the versatility of fixings and optical distributions available to it, it shapes the light, taking it where it is required, thus creating comfortable environments in all kinds of urban spaces such as parks, gardens, pedestrian areas, bike lanes or residential areas.

GENERAL DATA

Aluminum injected EN AC-44300
with low copper content <0,1%.

IK10 IP66

CI CII

Luminous flux
1.000-13.000 lm

Operating temperature
-40°C ~ +55°C *

Luminaire performance
Up to 144 lm/W

Made in UE

Colour temperature

2200 K 2700 K 3000 K 4000 K
CRI > 70 CRI > 70 CRI > 70 CRI > 70

Optionally: CRI>80
Optionally: Amber

* Depending on the luminaire configuration

Century presents a totally
balanced geometry.

The vertical-lateral version incorporates
tilt adjustment marks by degrees.

Tool-less opening system
designed by Carandini.
